

Waleed Iftikhar

Date of birth: 13/06/2004 | **Place of birth:** Rahim Yar Khan | **Nationality:** Pakistani | **Phone number:**

(+92) 3030834088 (Mobile) | **Email address:** waleediftikhar188@gmail.com | **Website:** waleediftikhar.me |

Whatsapp Messenger: +923030834088 |

Address: Chack88,basti lal din rahim yar khan, 64200, Rahim Yar Khan, Pakistan (Home)

ABOUT ME

I'm a **MERN Stack Developer** with 2 years of experience in **MongoDB, Express, React, and Node.js**. I build fast, scalable web apps with modern UI/UX using **Next.js, Redux, TanStack Query, Framer Motion, and Material UI**. I'm skilled in developing **REST APIs**, real-time systems with **Socket.IO**, and **web scraping automation** using **Node.js + Puppeteer**.

EDUCATION AND TRAINING

01/2022 – 01/2025 Bhawalpur, Pakistan

BS (INFORMATION TECHNOLOGY) Islamia University OF Bhawalpur (Rahim Yar Campus)

Website www.iub.edu.pk

05/2016 – 11/2016 Mithankot, Pakistan

ELECTRICAL DIPLOMA Vocational Training Institute

Website www.pvtc.gop.pk

WORK EXPERIENCE

MERN STACK DEVELOPER – CODESINC – 01/05/2025 – Current – RAHIM YAR KHAN, PAKISTAN

1. **Develop and maintain high-performance, responsive web applications** using the MERN stack — **MongoDB, Express, React, and Node.js** — focusing on scalability, clean architecture, and seamless user experiences.
2. **Implement advanced frontend features** such as **Framer Motion animations, Material UI components**, and optimized **Redux/TanStack Query state management**, ensuring smooth and dynamic UI/UX integration
3. **Build and integrate RESTful APIs, real-time communication with Socket.IO**, and **automated web scraping solutions using Node.js and Puppeteer** to support data-driven and interactive system functionalities.

NEXTJS DEVELOPER (REMOTE) – SOFTVILLA SOLUTIONS – 01/03/2025 – 31/08/2025 – LAHORE, PAKISTAN

1. Integrate with backend APIs built using Node.js and Express (MERN stack).
2. Optimize applications for speed and responsiveness.
3. Write clean, reusable, and well-documented code.

FRONT-END DEVELOPER – MINDFLARE TECHNOLOGIES – 05/2024 – 30/04/2025 – KARACHI, PAKISTAN

- Writing clean, efficient, and maintainable code to improve the performance of web applications. Implementing best practices for speed and performance optimization
- Implementing designs that work seamlessly across various devices and screen sizes. Ensuring the website or application is mobile-friendly.
- Working closely with UX/UI designers to translate design mockups into functional code.

FRONT END DEVELOPMENT – M ZAFAR & COMPANY – 02/2024 – 04/2024 – DG KHAN, PAKISTAN

1. Designing and implementing responsive user interfaces with HTML, CSS, and JavaScript.
2. Writing clean, maintainable, and efficient code.
3. Collaborating with UI/UX designers to translate design wireframes into functional web pages.
4. Ensuring cross-browser compatibility and optimizing web pages for performance.

FRONTEND INTERN DEV – DEV CASTLE – 01/06/2023 – 31/10/2023 – RAHIM YAR KHAN, PAKISTAN

1. Developed **web pages and user interfaces** using **React.js**.
2. Worked on **UI enhancements** with **Material UI** and basic animations.
3. Assisted in **connecting frontend with backend APIs** and learning **full-stack workflows**.

● LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	B2	B2	B2	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● SKILLS

Web Designing & Web Development | React Query, Redux, Redux Toolkit, Formik and many other libraries) | React Frame Work | Node.js, React.js | Nextjs | Git | TypeScript | Javascript(Nodejs, Expressjs)

● CONFERENCES AND SEMINARS

22/06/2023 Khwaja Fareed university of engineering and information technology

Seminar on Unlocking Python's Potential: Dynamic Applications In Web Development

Python offers powerful and flexible web frameworks such as Django, Flask, and Pyramid. Django, a popular Python web framework, follows a "batteries-included" philosophy, providing built-in tools and features for common web development tasks.

● PROJECTS

08/2025 – CURRENT

GeoEstate – Spanish Real Estate Platform

- Developed a **full-stack real estate platform** including **admin and user portals**, leveraging **MongoDB, Express, React, and Node.js**.
- Implemented **microservices architecture** with **Node.js APIs** for automated **daily property data scraping**, ensuring fresh and accurate listings.
- Built **backend scrapers** and **data pipelines** to collect, process, and store property details efficiently, supporting both admin management and user-facing features.

14/09/2025 – 30/10/2025

PetCare Platform for Online Vet Consultations

- Implemented **user-friendly interfaces** for booking consultations, managing pet records, and facilitating real-time communication.
- Built **secure backend systems** for data management, appointments, and notifications, ensuring a seamless and reliable experience for users.

Link <https://petcare.com.pk/>

15/01/2025 – 28/02/2025

Hospital Management System for Memon Community Hospital

- Write here the descriptionDeveloped a complete **Hospital Management System** using **MongoDB, Express, React, and Node.js**.
- Implemented **patient and doctor record management, staff management, billing with printable invoices, inventory management, and accounting features**.
- Built a **full-featured system** to maintain accurate **records, streamline hospital operations**, and manage day-to-day workflows efficiently.
